

**REMARKS/ARGUMENTS**

Reconsideration is respectfully requested.

Claims 1-6 are pending in the present application before this amendment. By the present amendment, Claims 3-6 have been canceled without prejudice, and Claim 1 has been amended. No new matter has been added.

Drawings stand objected to for the alleged reasons that some of the claimed features of Claims 3-6 are not clearly shown in the drawings. Although Applicants respectfully disagree with the reasons for the objection, Claims 3-6 have been cancelled herein without prejudice to render the present issues relating to the objections to the drawings moot.

In FIG. 3, the direction of the arrow between the correction circuit unit 14 and the corrected power supply unit is shown in the reversed direction due to an inadvertent error. This error has been corrected in this amendment.

Claims 1-6 stand rejected under 35 U.S.C. § 112, ¶1 as failing to comply with the written description requirement. Claims 1-6 again stand rejected under 35 U.S.C. § 112, ¶2 as being indefinite.

In response, Claim 1 has been amended as follows:

--a correction circuit unit for transforming the analog signal outputted from the gate driving power supply unit into a saw-tooth type signal; and  
a control circuit unit for controlling the turn-on/off operation of the correction circuit unit; and  
a corrected power supply unit for supplying saw-tooth type signals corrected in the correction circuit unit to the gate driver IC--.

These above amendments are well supported in the Specification such as page 6, line 18 to page 7, line 17.

For the reasons set forth above, Applicants respectfully submit that Claims 1-2, now pending in this application, have been amended to overcome all grounds of rejections raised in the Office Action. This amendment is considered to be responsive to all points raised in the Office Action. Accordingly, Applicants respectfully request reconsideration and withdrawal of the outstanding rejections and earnestly solicit an indication of allowable subject matter. Should the Examiner have any remaining questions or concerns, the Examiner is encouraged to contact the undersigned attorney by telephone to expeditiously resolve such concerns.

Respectfully submitted,

Dated: February 17, 2004

W. William Park, Reg. No. 55,523
